Straight Brake Line Set 30'

We carry everything you need to do it yourself

A preformed set may not work for your particular application, when building a street rod there is no way to standardize the parts and locations to provide preformed lines. For the street rod builder we provide everything from the tubing, fittings, proportional valves, residual valves, hoses, clamps and the tools to get the job done right.

Straight Length Sets

We offer straight length sets that include all the material to complete the brake plumbing on any car or truck, Sets come with tubing, fittings, Spring wrap, unions and tees.

Steel Set **$60** Stainless Set **$125**
