**Inline Tube's disc brake conversions upgrade your drum brake car to discs. You have been pushing on a brake pedal that feels like a brick too long, upgrade today.**

**Inline Tube has made more brake and fuel lines for concours restorations than any other company. We have the pictures to prove it.**

## Quick Tip: FLuid

DOT 3 originally came in the brake system. This fluid can destroy your paint and collects moisture which over time reduces performance. Under extreme braking conditions (constant drag racing) or excessive braking, Dot 3 will not perform DOT 5 (silicone fluid). DOT 5 is an excellent choice for museum cars since it will not collect moisture and does not harm paint. Never mix DOT 5 & DOT 3 fluids.

When ordering **Stainless Steel Lines**

Please place a "S" in front of the part number.
