Inline Tube does a ton of homework to research the parts we make. Every part we make is verified off an original car.

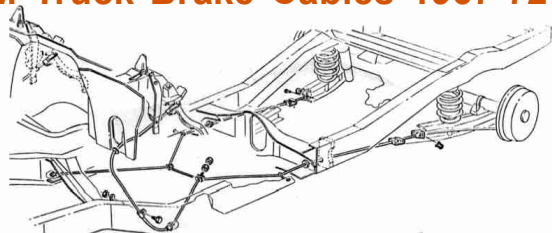

Production Cables We Do Not Have

If you do not see your application, we can make it custom for your car or truck. Custom duplication requires you to send the original cables for the new to be made. Inline Tube can duplicate any brake cable for all American makes and models from the 40's to current.

Inline Tube is online. www.InlineTube.com

All Inline cables are available in premium grade stainless steel, or authentic original steel.

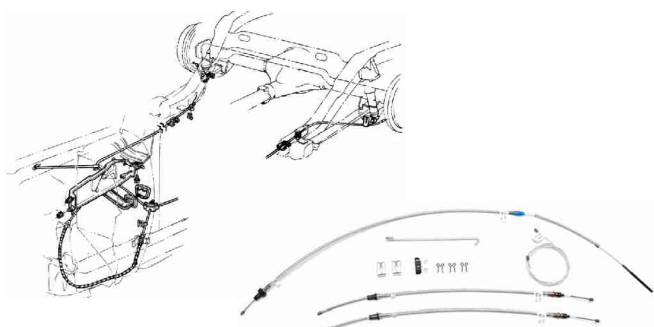

Inline Tube does a ton of homework to re-search the parts we make. Every part we make is verified off an original car.

If you have a brake question, we have the answer. We have been working on brake systems for over 15 years. Give us a call, we can help.

Cable Applications

Inline Tube has compiled a list of all the vehicles we make cables for. We receive many new cables in each week. If you do not see your application, please call. If we do not have your application, we can make it custom for your car or truck. Call for details.

Inline Tube has all the valves for your classic. Rebuilding is costly and only as good as the original part. Now you can buy new at a fraction of the cost.

All professional restoration shops have made Inline Tube their first choice in plumbing and brake products.

Inline Tube does not install the parts, we manufacture only the highest quality parts on the market so the installation is a snap.
